tips for filling out this form

To Enroll

Missing, incomplete or illegible information can cause delays in adding new employees to the system and could create errors in billing. To ensure proper handling of your enrollment forms, please make sure the following areas are completed:

- **Policy Name and Group Number** – to make sure plan members are added to the correct group.
- **Department/Division Numbers** – so plan members are added in the proper locations, and appear in the appropriate section on the billing if the group has multiple departments or divisions.
- **Social Security Numbers** – the most important identifier for plan members when calling in with claims or administrative questions. Please double check to make sure your social security number is accurate and written clearly.
- **Full-time Employment Date** – needed so the correct effective date is calculated for new members.
- **Class Number** – needed when the plan has more than one class of employees.

To Change

Changing Dependent Codes – When adding or dropping dependents, please note whether this change is because of a “life event” or for some other reason. (Examples of life events: marriage, birth of a child, divorce . . .) Please remember to include the date of the event. Late entrant status will be applied if a life event is not included. Be specific when changing status so all dependents who are still eligible will be covered.

Imaging

In order to provide better service, our administration system utilizes image technology. In the image environment, we scan your enrollment forms into our system, making them easier and faster to access. Better quality forms help us to process your enrollments faster. Unfortunately, certain forms are difficult or impossible to scan. The following list of helpful hints will make your forms easier to scan:

Do:

- 1) submit clear, legible enrollment forms.
- 2) underline or circle important information.
- 3) use blue or black ink.

Don't:

- 1) submit dark copies as they appear black on imaging.
- 2) highlight, which blackens the area so it cannot be read.
- 3) write on the top or bottom margins. This information is not always captured on the image system.
