

Neuberger Berman Advisers Management Trust Large Cap Value Portfolio

I Class Shares

Annual Report

December 31, 2018

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, you may no longer receive paper copies of the Fund's annual and semi-annual shareholder reports by mail from the insurance company that issued your variable annuity and variable life insurance contract or from the financial intermediary that administers your qualified pension or retirement plan, unless you specifically request paper copies of the reports from your insurance company or financial intermediary. Instead, the reports will be made available on the Fund's website www.nb.com/AMTliterature, and may also be available on a website from the insurance company or financial intermediary that offers your contract or administers your retirement plan, and such insurance company or financial intermediary will notify you by mail each time a report is posted and provide you with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the insurance company electronically by following the instructions provided by the insurance company. If offered by your insurance company or financial intermediary, you may elect to receive all future reports in paper and free of charge from the insurance company or financial intermediary. You can contact your insurance company or financial intermediary if you wish to continue receiving paper copies of your shareholder reports or you can call 800.877.9700 or send an email request to fundinfo@nb.com to request a paper copy of your shareholder reports. Your election to receive reports in paper will apply to all funds available under your contract or retirement plan.

Large Cap Value Portfolio Commentary (Unaudited)

The Neuberger Berman Advisers Management Trust Large Cap Value Portfolio Class I posted a total return of –1.04% for the 12 months ended December 31, 2018, outperforming its benchmark, the Russell 1000® Value Index (the Index), which posted a –8.27% total return for the same period.

The U.S. stock market generated strong results over the first nine months of the year, reaching several new all-time highs. This rally was driven by generally robust corporate earnings, partially fueled by the 2017 tax reform bill. However, the market then reversed course and experienced a broad-based decline over the last three months of 2018. A number of issues negatively impacted investor sentiment, including moderating global growth, ongoing global trade tensions, concerns over future U.S. Federal Reserve Board (Fed) monetary tightening and a partial U.S. government shutdown. All told, the S&P 500® Index fell –13.52% in the fourth quarter, pushing its calendar year 2018 return to –4.38%. Meanwhile, the Index declined –11.72% during the fourth quarter and fell –8.27% in 2018. Eight of the 11 sectors within the Index posted negative returns for the year. On a relative basis, cyclical sectors, such as Industrials and Energy produced the weakest results, whereas more defensive sectors, including Health Care and Utilities, generated positive results.

While the Fund generated a negative absolute return, it outperformed the Index during the reporting period. Both stock selection and sector allocation contributed to the Fund's relative results. In terms of stock selection, holdings in the Consumer Discretionary, Financials and Health Care sectors were the largest contributors to relative returns. Looking at individual stocks, positions in lululemon Athletica Inc., HCA Healthcare, Inc., Centene Corp., Pfizer, Inc. and Exelon Corp. were the largest contributors to the Fund's absolute returns. Conversely, stock selection in the Energy, Information Technology and Industrials sectors were headwinds for relative results. With regard to individual holdings, Kraft Heinz (sold during the period), Exxon Mobil, Cabot Oil & Gas, Athene Holding and Oracle Corp. (sold during the period) were the largest detractors from absolute performance. Lastly, the Fund's use of written options contributed positively to performance during the period.

Many of the risks we were concerned about in the middle of the year came to pass during the fourth quarter of 2018. In particular, the Fed continued to tighten monetary policy, trade tensions between the U.S. and China triggered periods of volatility and many investors appeared to be complacent given the lengthy market rally. Collectively, these and other factors—including the partial government shutdown—triggered a perfect storm and the market's sharp descent during the fourth quarter of 2018. Looking ahead, we remain cautious on the growth trajectory for the U.S. economy given the lagging effect of Fed rate hikes. While we do not believe a recession is imminent, the pace of the expansion could be curtailed in 2019. That being said, the recent market downturn has resulted in a number of price dislocations that we believe could turn into rewarding investment opportunities. In addition, we firmly believe that equities remain the most appropriate asset class over the long term given their potential to generate capital appreciation.

As always, our portfolio construction strategy entails seeking out underappreciated stocks with hidden value that we believe can be realized if certain catalysts play out as we anticipate them to over time, and we believe that this approach is fundamental to generating favorable returns over the long term.

Sincerely,

ELI M. SALZMANN
PORTFOLIO MANAGER

Information about principal risks of investing in the Fund is set forth in the prospectus and statement of additional information.

The portfolio composition, industries and holdings of the Fund are subject to change without notice.

PERFORMANCE HIGHLIGHTS

	Inception Date	Average Annual Total Return Ended 12/31/2018			
		1 Year	5 Years	10 Years	Life of Fund
Class I	03/22/1994	-1.04%	6.72%	12.98%	8.21%
Russell 1000® Value Index ^{1,2}		-8.27%	5.95%	11.18%	8.96%

The performance data quoted represent past performance and do not indicate future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month-end, please visit <http://www.nb.com/amtportfolios/performance>.

The results shown in the table reflect the reinvestment of income dividends and other distributions, if any. The results do not reflect the effect of taxes a shareholder would pay on Fund distributions or on the redemption of Fund shares. The results do not reflect fees and expenses of the variable annuity and variable life insurance policies or the qualified pension and retirement plans whose proceeds are invested in the Fund.

The investment return and principal value of an investment will fluctuate and shares, when redeemed, may be worth more or less than their original cost.

Returns would have been lower if Neuberger Berman Investment Advisers LLC ("Management") had not reimbursed certain expenses and/or waived a portion of the investment management fees during certain of the periods shown. Repayment by a class (of expenses previously reimbursed and/or fees previously waived by Management) will decrease the class's returns. Please see Note B in the Notes to Financial Statements for specific information regarding expense reimbursement and/or fee waiver arrangements.

As stated in the Fund's most recent prospectus, the total annual operating expense ratio for fiscal year 2017 was 1.12% for Class I shares (before expense reimbursements and/or fee waivers, if any). The expense ratios for the annual period ended December 31, 2018 can be found in the Financial Highlights section of this report.

COMPARISON OF A \$10,000 INVESTMENT

This graph shows the change in value of a hypothetical \$10,000 investment in the Fund over the past 10 fiscal years, or since the Fund's inception, if it has not operated for 10 years. The result is compared with benchmarks, which include a broad-based market index and may include a more narrowly based index. Market indices have not been reduced to reflect any of the fees and costs of investing. The results shown in the graph reflect the reinvestment of income dividends and other distributions, if any. The results do not reflect the effect of taxes a shareholder would pay on Fund distributions or on the redemption of Fund shares. The results do not reflect fees and expenses of the variable annuity and variable life insurance policies or the qualified pension and retirement plans whose proceeds are invested in the Fund. Results represent past performance and do not indicate future results.

Please see Endnotes for additional information.

Endnotes

- 1 The date used to calculate Life of Fund performance for the index is March 22, 1994, the Fund's commencement of operations.
- 2 The Russell 1000® Value Index is a float-adjusted market capitalization-weighted index that measures the performance of the large-cap value segment of the U.S. equity market. It includes those Russell 1000® Index companies with lower price-to-book ratios and lower forecasted growth rates. The index is rebalanced annually in June. The Russell 1000 Index is a float-adjusted market capitalization-weighted index that measures the performance of the large-cap segment of the U.S. equity market, and includes approximately 1,000 of the largest securities in the Russell 3000® Index (which measures the performance of the 3,000 largest U.S. public companies based on total market capitalization). The index is rebalanced annually in June. Please note that the indices described in this report do not take into account any fees, expenses or tax consequences of investing in the individual securities that they track, and that individuals cannot invest directly in any index. Data about the performance of an index are prepared or obtained by Neuberger Berman Investment Advisers LLC ("Management") and reflect the reinvestment of income dividends and other distributions, if any. The Fund may invest in securities not included in a described index and generally does not invest in all securities included in a described index.

The investments for the Fund are managed by the same portfolio manager(s) who manage(s) one or more other registered funds that have names, investment objectives and investment styles that are similar to those of the Fund. You should be aware that the Fund is likely to differ from those other mutual fund(s) in size, cash flow pattern and tax matters. Accordingly, the holdings and performance of the Fund can be expected to vary from those of the other mutual fund(s).

Shares of the separate Neuberger Berman Advisers Management Trust Portfolios, including the Fund, are not available to the general public. Shares of the Fund may be purchased only by life insurance companies to be held in their separate accounts, which fund variable annuity and variable life insurance policies, and by qualified pension and retirement plans.

Statistics and projections in this report are derived from sources deemed to be reliable but cannot be regarded as a representation of future results of the Fund. This report is prepared for the general information of shareholders and is not an offer of shares of the Fund. Shares are sold only through the currently effective prospectus, which must precede or accompany this report.

Information About Your Fund's Expenses (Unaudited)

As a Fund shareholder, you incur two types of costs: (1) transaction costs such as fees and expenses that are, or may be, imposed under your variable contract or qualified pension plan; and (2) ongoing costs, including management fees, distribution and/or service (12b-1) fees (if applicable), and other Fund expenses. This example is intended to help you understand your ongoing costs (in U.S. dollars) of investing in the Fund and compare these costs with the ongoing costs of investing in other mutual funds.

This table is designed to provide information regarding costs related to your investments. The following examples are based on an investment of \$1,000 made at the beginning of the six month period ended December 31, 2018 and held for the entire period. The table illustrates the Fund's costs in two ways:

Actual Expenses and Performance:

The first section of the table provides information about actual account values and actual expenses in dollars, based on the Fund's actual performance during the period indicated. You may use the information in this line, together with the amount you invested, to estimate the expenses you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section of the table under the heading entitled "Expenses Paid During the Period" to estimate the expenses you paid over the period.

Hypothetical Example for Comparison Purposes:

The second section of the table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return at 5% per year before expenses. This return is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund versus other funds. To do so, compare the expenses shown in this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses in the table are meant to highlight your ongoing costs only and do not include any transaction costs, such as fees and expenses that are, or may be imposed under your variable contract or qualified pension plan. Therefore, the information under the heading "Hypothetical (5% annual return before expenses)" is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

Expense Example (Unaudited)

NEUBERGER BERMAN ADVISERS MANAGEMENT TRUST LARGE CAP VALUE PORTFOLIO

	Beginning Account Value 7/1/18	Ending Account Value 12/31/18	Expenses Paid During the Period 7/1/18 – 12/31/18
Actual			
Class I	\$1,000.00	\$ 999.80	\$5.85 ^(a)
Hypothetical (5% annual return before expenses)			
Class I	\$1,000.00	\$1,019.36	\$5.90 ^(b)

(a) Expenses are equal to the annualized expense ratio of 1.16%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period shown).

(b) Hypothetical expenses are equal to the annualized expense ratio of 1.16%, multiplied by the average account value over the period (assuming a 5% annual return), multiplied by 184/365 (to reflect the one-half year period shown).

Notes to Financial Statements Large Cap Value Portfolio

Note A—Summary of Significant Accounting Policies:

- 1 **General:** Neuberger Berman Advisers Management Trust (the “Trust”) is a Delaware statutory trust organized pursuant to an Amended and Restated Trust Instrument dated March 27, 2014. The Trust is currently comprised of eight separate operating series (each individually a “Fund,” and collectively the “Funds”) each of which is diversified. The Trust is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”), and its shares are registered under the Securities Act of 1933, as amended. Neuberger Berman Advisers Management Trust Large Cap Value Portfolio (the “Fund”) currently offers only Class I shares. The Trust’s Board of Trustees (the “Board”) may establish additional series or classes of shares without the approval of shareholders.

The assets of each Fund belong only to that Fund, and the liabilities of each Fund are borne solely by that Fund and no other.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946 “Financial Services—Investment Companies.”

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (“GAAP”) requires Neuberger Berman Investment Advisers LLC (“Management”) to make estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates.

Shares of the Fund are not available to the general public and may be purchased only by life insurance companies to serve as an investment vehicle for premiums paid under their variable annuity and variable life insurance contracts and to certain qualified pension and other retirement plans.

- 2 **Portfolio valuation:** In accordance with ASC 820 “Fair Value Measurement” (“ASC 820”), all investments held by the Fund are carried at the value that Management believes the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment under current market conditions. Various inputs, including the volume and level of activity for the asset or liability in the market, are considered in valuing the Fund’s investments, some of which are discussed below. Significant Management judgment may be necessary to value investments in accordance with ASC 820.

ASC 820 established a three-tier hierarchy of inputs to create a classification of value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1—quoted prices in active markets for identical investments
- Level 2—other observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, amortized cost, etc.)
- Level 3—unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

The value of the Fund’s investments in equity securities, for which market quotations are readily available, is generally determined by Management by obtaining valuations from independent pricing services based on the latest sale price quoted on a principal exchange or market for that security (Level 1 inputs). Securities traded primarily on the NASDAQ Stock Market are normally valued at the NASDAQ Official Closing Price (“NOCP”) provided by NASDAQ each business day. The NOCP is the most recently reported price as of 4:00:02 p.m., Eastern Time, unless that price is outside the range of the “inside” bid and asked prices (i.e., the bid and asked

prices that dealers quote to each other when trading for their own accounts); in that case, NASDAQ will adjust the price to equal the inside bid or asked price, whichever is closer. Because of delays in reporting trades, the NOCP may not be based on the price of the last trade to occur before the market closes. If there is no sale of a security on a particular day, the independent pricing services may value the security based on market quotations.

Management has developed a process to periodically review information provided by independent pricing services for all types of securities.

Investments in non-exchange traded investment companies are valued using the respective fund's daily calculated net asset value ("NAV") per share (Level 2 inputs).

If a valuation is not available from an independent pricing service, or if Management has reason to believe that the valuation received does not represent the amount the Fund might reasonably expect to receive on a current sale in an orderly transaction, Management seeks to obtain quotations from brokers or dealers (generally considered Level 2 or Level 3 inputs depending on the number of quotes available). If such quotations are not readily available, the security is valued using methods the Board has approved in the good-faith belief that the resulting valuation will reflect the fair value of the security. Numerous factors may be considered when determining the fair value of a security based on Level 2 or Level 3 inputs, including available analyst, media or other reports, securities within the same industry with recent highly correlated performance, trading in futures or American Depositary Receipts and whether the issuer of the security being fair valued has other securities outstanding.

Fair value prices are necessarily estimates, and there is no assurance that such a price will be at or close to the price at which the security is next quoted or next trades.

- 3 **Foreign currency translations:** The accounting records of the Fund are maintained in U.S. dollars. Foreign currency amounts are normally translated into U.S. dollars using the exchange rate as of 4:00 p.m. Eastern Time, on days the NYSE is open for business, to determine the value of investments, other assets and liabilities. Purchase and sale prices of securities, and income and expenses, are translated into U.S. dollars at the prevailing rate of exchange on the respective dates of such transactions. Net unrealized foreign currency gain/(loss), if any, arises from changes in the value of assets and liabilities, other than investments in securities, as a result of changes in exchange rates and is stated separately in the Statement of Operations.
- 4 **Securities transactions and investment income:** Securities transactions are recorded on trade date for financial reporting purposes. Dividend income is recorded on the ex-dividend date or, for certain foreign dividends, as soon as the Fund becomes aware of the dividends. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of the securities received. Interest income, including accretion of original issue discount, where applicable, and accretion of discount on short-term investments, if any, is recorded on the accrual basis. Realized gains and losses from securities transactions and foreign currency transactions, if any, are recorded on the basis of identified cost and stated separately in the Statement of Operations. Included in net realized gain/(loss) on investments are proceeds from the settlements of class action litigation in which the Fund participated as a class member. The amount of such proceeds for the year ended December 31, 2018 was \$117,670.
- 5 **Income tax information:** The Fund is treated as a separate entity for U.S. federal income tax purposes. It is the policy of the Fund to continue to qualify for treatment as a regulated investment company ("RIC") by complying with the requirements of the U.S. Internal Revenue Code applicable to RICs and to distribute substantially all of its net investment income and net realized capital gains to its shareholders. To the extent the Fund distributes substantially all of its net investment income and net realized capital gains to shareholders, no federal income or excise tax provision is required.

The Fund has adopted the provisions of ASC 740 "Income Taxes" ("ASC 740"). ASC 740 sets forth a minimum threshold for financial statement recognition of a tax position taken, or expected to be taken, in a tax return. The Fund recognizes interest and penalties, if any, related to unrecognized tax positions as an income tax expense in the Statement of Operations. The Fund is subject to examination by U.S. federal and state tax authorities for

returns filed for the tax years for which the applicable statutes of limitations have not yet expired. As of December 31, 2018, the Fund did not have any unrecognized tax positions.

At December 31, 2018, the cost for all long security positions and derivative instruments (if any) for U.S. federal income tax purposes was \$61,461,649. Gross unrealized appreciation of long security positions was \$4,556,265 and gross unrealized depreciation of long security positions was \$2,677,034 resulting in net unrealized appreciation of \$1,879,231 based on cost for U.S. federal income tax purposes.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. The Fund may also utilize earnings and profits distributed to shareholders on redemption of their shares as a part of the dividends-paid deduction for income tax purposes.

Any permanent differences resulting from different book and tax treatment are reclassified at year-end and have no impact on net income, NAV or NAV per share of the Fund. For the year ended December 31, 2018, there were no permanent differences requiring a reclassification between total distributable earnings/(losses) and paid-in capital.

The tax character of distributions paid during the years ended December 31, 2018 and December 31, 2017 was as follows:

Distributions Paid From:					
Ordinary Income		Long-Term Capital Gain		Total	
2018	2017	2018	2017	2018	2017
\$3,973,586	\$1,951,874	\$4,174,256	\$404,059	\$8,147,842	\$2,355,933

As of December 31, 2018, the components of distributable earnings (accumulated losses) on a U.S. federal income tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Capital Gain	Unrealized Appreciation/ (Depreciation)	Loss Carryforwards and Deferrals	Other Temporary Differences	Total
\$1,833,566	\$5,459,697	\$1,879,231	\$—	\$—	\$9,172,494

The temporary differences between book basis and tax basis distributable earnings are primarily due to losses disallowed and recognized on wash sales.

- 6 Distributions to shareholders:** The Fund may earn income, net of expenses, daily on its investments. Distributions from net investment income and net realized capital gains, if any, are generally distributed once a year (usually in October). Income distributions and capital gain distributions to shareholders are recorded on the ex-date.

It is the policy of the Fund to pass through to its shareholders substantially all real estate investment trust ("REIT") distributions and other income it receives, less operating expenses. The distributions the Fund receives from REITs are generally composed of income, capital gains, and/or return of REIT capital, but the REITs do not report this information to the Fund until the following calendar year. At December 31, 2018, the Fund estimated these amounts within the financial statements because the 2018 information is not available from the REITs until after the Fund's fiscal year-end. All estimates are based upon REIT information sources available to the Fund together with actual IRS Forms 1099-DIV received to date. For the year ended December 31, 2018, the character of distributions, if any, paid to shareholders disclosed within the Statements of Changes in Net Assets is based on estimates made at that time. Based on past experience it is possible that a portion of the Fund's distributions during the current fiscal year, if any, will be considered tax return of capital, but the actual amount of the tax return of capital, if any, is not determinable until after the Fund's fiscal year-end. After calendar year-end, when the Fund learns the nature of the distributions paid by REITs during that year, distributions previously identified as income are often re-characterized as return of capital and/or capital gain. After all applicable REITs have

informed the Fund of the actual breakdown of distributions paid to the Fund during its fiscal year, estimates previously recorded are adjusted on the books of the Fund to reflect actual results. As a result, the composition of the Fund's distributions as reported herein may differ from the final composition determined after calendar year-end and reported to Fund shareholders on IRS Form 1099-DIV.

- 7 **Foreign taxes:** Foreign taxes withheld, if any, represent amounts withheld by foreign tax authorities, net of refunds recoverable.
- 8 **Expense allocation:** Certain expenses are applicable to multiple funds within the complex of related investment companies. Expenses directly attributable to a fund are charged to that fund. Expenses of the Trust that are not directly attributable to a particular series of the Trust (e.g., the Fund) are allocated among the series of the Trust, on the basis of relative net assets, except where a more appropriate allocation of expenses to each of the series can otherwise be made fairly. Expenses borne by the complex of related investment companies, which includes open-end and closed-end investment companies for which Management serves as investment manager, that are not directly attributable to a particular investment company in the complex (e.g., the Trust) or series thereof are allocated among the investment companies in the complex or series thereof on the basis of relative net assets, except where a more appropriate allocation of expenses to each of the investment companies in the complex or series thereof can otherwise be made fairly.
- 9 **Investments in foreign securities:** Investing in foreign securities may involve sovereign and other risks, in addition to the credit and market risks normally associated with domestic securities. These additional risks include the possibility of adverse political and economic developments (including political instability, nationalization, expropriation, or confiscatory taxation) and the potentially adverse effects of unavailability of public information regarding issuers, less governmental supervision and regulation of financial markets, reduced liquidity of certain financial markets, and the lack of uniform accounting, auditing, and financial reporting standards or the application of standards that are different or less stringent than those applied in the United States. Foreign securities also may experience greater price volatility, higher rates of inflation, and delays in settlement.
- 10 **Investment company securities and exchange-traded funds:** The Fund may invest in shares of other registered investment companies, including exchange-traded funds ("ETFs"), within the limitations prescribed by the 1940 Act or pursuant to an exemptive order from the Securities and Exchange Commission ("SEC") that permits the Fund to invest in both affiliated and unaffiliated investment companies, including ETFs, in excess of the limits in Section 12(d)(1)(A) of the 1940 Act, as amended, subject to the terms and conditions of such order. Some ETFs seek to track the performance of a particular market index. These indices include both broad-based market indices and more narrowly-based indices, including those relating to particular sectors, markets, regions or industries. However, some ETFs have an actively-managed investment objective. ETF shares are traded like traditional equity securities on a national securities exchange or NASDAQ. The Fund will indirectly bear its proportionate share of any management fees and other expenses paid by such other investment companies, which will increase expenses and decrease returns.
- 11 **Derivative instruments:** The Fund's use of derivatives during the year ended December 31, 2018 is described below. Please see the Schedule of Investments for the Fund's open positions in derivatives, if any, at December 31, 2018. The Fund has adopted the provisions of ASC 815 "Derivatives and Hedging" ("ASC 815"). The disclosure requirements of ASC 815 distinguish between derivatives that qualify for hedge accounting and those that do not. Because investment companies value their derivatives at fair value and recognize changes in fair value through the Statement of Operations, they do not qualify for hedge accounting. Accordingly, even though the Fund's investments in derivatives may represent economic hedges, they are considered non-hedge transactions for purposes of this disclosure.

Options: During the year ended December 31, 2018, the Fund used options written to enhance returns.

Premiums paid by the Fund upon purchasing a call or put option are recorded in the asset section of the Fund's Statement of Assets and Liabilities and are subsequently adjusted to the current market value. When an option is

exercised, closed, or expired, the Fund realizes a gain or loss and the asset is eliminated. For purchased call options, the Fund's loss is limited to the amount of the option premium paid.

Premiums received by the Fund upon writing a call option or a put option are recorded in the liability section of the Fund's Statement of Assets and Liabilities and are subsequently adjusted to the current market value. When an option is exercised, closed, or expired, the Fund realizes a gain or loss and the liability is eliminated.

When a fund writes a call option on an underlying asset it does not own, its exposure on such an option is theoretically unlimited. When writing a covered call option, the Fund, in return for the premium, gives up the opportunity for profit from a price increase in the underlying security above the exercise price, but conversely retains the risk of loss should the price of the security decline. When writing a put option, the Fund, in return for the premium, takes the risk that it must purchase the underlying security at a price that may be higher than the current market price of the security. If a covered call or put option that the Fund has written expires unexercised, the Fund will realize a gain in the amount of the premium. All securities covering outstanding written options are held in escrow by the custodian bank.

The impact of the Fund's use of derivative instruments (which did not qualify as hedging instruments under ASC 815) on the Statement of Operations during the year ended December 31, 2018, was as follows:

Realized Gain/(Loss)

Derivative Type	Statement of Operations Location	Equity Risk	Total
Options written	Net realized gain/(loss) on: expiration or closing of option contracts written	\$72,590	\$72,590
Total Realized Gain/(Loss)		\$72,590	\$72,590

Change in Appreciation/(Depreciation)

Derivative Type	Statement of Operations Location	Equity Risk	Total
Options written	Change in net unrealized appreciation/(depreciation) in value of: option contracts written	\$274,520	\$274,520
Total Change in Appreciation/(Depreciation)		\$274,520	\$274,520

While the Fund may receive rights and warrants in connection with its investments in securities, these rights and warrants are not considered "derivative instruments" under ASC 815.

- 12 Securities lending:** The Fund, using State Street Bank and Trust Company ("State Street") as its lending agent, may loan securities to qualified brokers and dealers in exchange for negotiated lender's fees. These fees, if any, would be disclosed within the Statement of Operations under the caption "Income from securities loaned-net" and are net of expenses retained by State Street as compensation for its services as lending agent. For the year ended December 31, 2018, the Fund received income under the securities lending arrangement of \$633.

The initial cash collateral received by the Fund at the beginning of each transaction shall have a value equal to at least 102% of the prior day's market value of the loaned securities (105% in the case of international securities). Thereafter, the value of the cash collateral is monitored on a daily basis, and cash collateral is moved daily between a counterparty and the Fund until the close of the transaction. The Fund may only receive collateral in the form of cash (U.S. dollars). Cash collateral is generally invested in a money market fund registered under the 1940 Act that is managed by an affiliate of State Street. The risks associated with lending portfolio securities include, but are not limited to, possible delays in receiving additional collateral or in the recovery of the loaned securities. Any increase or decrease in the fair value of the securities loaned and any interest earned or dividends paid or owed on those securities during the term of the loan would accrue to the Fund.

As of December 31, 2018, the Fund did not have any outstanding loans of securities.

- 13 Indemnifications:** Like many other companies, the Trust’s organizational documents provide that its officers (“Officers”) and trustees (“Trustees”) are indemnified against certain liabilities arising out of the performance of their duties to the Trust. In addition, both in some of its principal service contracts and in the normal course of its business, the Trust enters into contracts that provide indemnifications to other parties for certain types of losses or liabilities. The Trust’s maximum exposure under these arrangements is unknown as this could involve future claims against the Trust.

Note B—Investment Management Fees, Administration Fees, Distribution Arrangements, and Other Transactions With Affiliates:

The Fund retains Management as its investment manager under a Management Agreement. For such investment management services, the Fund pays Management a fee at the annual rate of 0.55% of the first \$250 million of the Fund’s average daily net assets, 0.525% of the next \$250 million, 0.50% of the next \$250 million, 0.475% of the next \$250 million, 0.45% of the next \$500 million, 0.425% of the next \$2.5 billion, and 0.40% of average daily net assets in excess of \$4 billion. Accordingly, for the year ended December 31, 2018, the investment management fee pursuant to the Management Agreement was equivalent to an annual effective rate of 0.55% of the Fund’s average daily net assets.

The Fund retains Management as its administrator under an Administration Agreement. The Fund pays Management an administration fee at the annual rate of 0.30% of its average daily net assets under this agreement. Additionally, Management retains State Street as its sub-administrator under a Sub-Administration Agreement. Management pays State Street a fee for all services received under the Sub-Administration Agreement.

Management has contractually agreed to waive fees and/or reimburse the Fund so that the total annual operating expenses do not exceed the expense limitation as detailed in the following table. This undertaking excludes fees payable to Management, interest, taxes, transaction costs, brokerage commissions, acquired fund fees and expenses, extraordinary expenses, and dividend and interest expenses relating to short sales, if any (commitment fees relating to borrowings are treated as interest for purposes of this exclusion) (“annual operating expenses”); consequently, net expenses may exceed the contractual expense limitation. The Fund has agreed that it will repay Management for fees and expenses waived or reimbursed provided that repayment does not cause the annual operating expenses to exceed its contractual expense limitation in place at the time the fees and expenses were waived or reimbursed, or the expense limitation in place at the time the Fund repays Management, whichever is lower. Any such repayment must be made within three years after the year in which Management incurred the expense.

During the year ended December 31, 2018, there was no repayment to Management under its contractual expense limitation.

At December 31, 2018, the Fund had no contingent liability to Management under its contractual expense limitation.

			Expenses Reimbursed in Year Ended December 31,		
			2016	2017	2018
			Subject to Repayment Until December 31,		
Class	Contractual Expense Limitation ^(a)	Expiration	2019	2020	2021
Class I	1.00%	12/31/21	\$—	\$—	\$—

- (a) Expense limitation per annum of the Fund’s average daily net assets.

Neuberger Berman BD LLC (the “Distributor”) is the Fund’s “principal underwriter” within the meaning of the 1940 Act. It acts as agent in arranging for the sale of the Fund’s Class I shares without sales commission or other compensation and bears all advertising and promotion expenses incurred in the sale of those shares. The Board adopted a non-fee distribution plan for the Fund’s Class I shares.

Note C—Securities Transactions:

During the year ended December 31, 2018, there were purchase and sale transactions of long-term securities (excluding option contracts) of \$97,941,605 and \$102,558,531, respectively.

During the year ended December 31, 2018, no brokerage commissions on securities transactions were paid to affiliated brokers.

Note D—Fund Share Transactions:

Share activity for the years ended December 31, 2018 and December 31, 2017 was as follows:

	For the Year Ended December 31,	
	2018	2017
Shares Sold	573,745	488,560
Shares Issued on Reinvestment of Dividends and Distributions	539,592	145,788
Shares Redeemed	(1,092,506)	(1,408,535)
Total	20,831	(774,187)

Note E—Line of Credit:

At December 31, 2018, the Fund was a participant in a syndicated committed, unsecured \$700,000,000 line of credit (the “Credit Facility”), to be used only for temporary or emergency purposes. Series of other investment companies managed by Management also participate in this line of credit on substantially the same terms. Interest is charged on borrowings under this Credit Facility at the highest of (a) a federal funds effective rate plus 1.00% per annum, (b) a Eurodollar rate for a one-month period plus 1.00% per annum, and (c) an overnight bank funding rate plus 1.00% per annum. The Credit Facility has an annual commitment fee of 0.15% per annum of the available line of credit, which is paid quarterly. The Fund has agreed to pay its pro rata share of the annual commitment fee, based on the ratio of its individual net assets to the net assets of all participants at the time the fee is due and payable, and interest charged on any borrowing made by the Fund and other costs incurred by the Fund. Because several mutual funds participate in the Credit Facility, there is no assurance that the Fund will have access to all or any part of the \$700,000,000 at any particular time. There were no loans outstanding under the Credit Facility at December 31, 2018. During the period ended December 31, 2018, the Fund did not utilize the Credit Facility.

Note F—Custodian Out-of-Pocket Expenses Refunded:

In May 2016, the Fund’s custodian, State Street, announced that it had identified inconsistencies in the way in which the Fund was invoiced for categories of expenses, particularly those deemed “out-of-pocket” costs, from 1998 through November 2015. The amounts in the table below represent the refunded expenses and interest determined to be payable to the Fund for the period in question. These amounts were refunded to the Fund by State Street during the year ended December 31, 2017.

Expenses Refunded	Interest Paid to the Fund
\$90,198	\$9,969

Note G—Recent Accounting Pronouncements:

As of November 5, 2018, pursuant to the SEC Release #33-10532 “Disclosure Update and Simplification”, the Fund is no longer required to disclose whether the distributions from earnings are either from net investment income or net realized capital gains. The presentation for the year ended December 31, 2017 has been adjusted for this change in the Statements of Changes in Net Assets. At December 31, 2017, the distributions from net investment income, net realized gain on investments and undistributed net investment income/(loss) were as follows:

Net Investment Income	Net Realized Gain on Investments	Undistributed Net Investment Income at 12/31/17
\$(414,816)	\$(1,941,117)	\$825,253

In August 2018, FASB issued Accounting Standards Update No. 2018-13, “Fair Value Measurement (Topic 820: Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement)” (“ASU 2018-13”). ASU 2018-13 eliminates the requirement to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the timing of transfers between levels of the fair value hierarchy and the valuation processes for Level 3 fair value measurements. ASU 2018-13 will require the need to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements, and the changes in unrealized gains and losses for recurring Level 3 fair value measurements. ASU 2018-13 will also require that information is provided about the measurement uncertainty of Level 3 fair value measurements as of the reporting date. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019 and allows for early adoption of either the entire standard or only the provisions that eliminate or modify the requirements. Management has elected to adopt early the provisions that eliminate disclosure requirements. Management is still currently evaluating the impact of applying the rest of the guidance.

Note H—Subsequent Event:

On December 13, 2018, the Board approved two separate reorganizations of Guardian Portfolio and Large Cap Value Portfolio (each, a “Merging Portfolio”) into Sustainable Equity Portfolio (the “Surviving Portfolio,” and together with the Merging Portfolios, the “Portfolios”) (each a “Reorganization”). Each Reorganization is independent of the other, and the Reorganization of either Merging Portfolio may proceed even if the Reorganization of the other Merging Portfolio is postponed or cancelled. All Portfolios are series of the Trust. Each Reorganization will take effect on or about April 30, 2019. No shareholder vote is required for either of the Reorganizations. At the time of each Reorganization, contractholders who are shareholders of a Merging Portfolio (indirectly through a separate account) automatically will become shareholders (again, indirectly through that separate account) of the corresponding Class of the Surviving Portfolio, receiving shares of the corresponding Class of the Surviving Portfolio having an aggregate NAV equal to the contractholder’s shares in the Merging Portfolio.

Financial Highlights

Large Cap Value Portfolio

The following table includes selected data for a share outstanding throughout each year and other performance information derived from the Financial Statements. Amounts that do not round to \$0.01 or \$(0.01) per share are presented as \$0.00 or \$(0.00), respectively. Ratios that do not round to 0.01% or (0.01)% are presented as 0.00% or (0.00)%, respectively. A “—” indicates that the line item was not applicable in the corresponding period.

Notes to Financial Highlights Large Cap Value Portfolio

- @ Calculated based on the average number of shares outstanding during each fiscal period.
- † Total return based on per share NAV reflects the effects of changes in NAV on the performance of the Fund during each fiscal period. Returns assume income dividends and other distributions, if any, were reinvested. Results represent past performance and do not indicate future results. Current returns may be lower or higher than the performance data quoted. Investment returns and principal will fluctuate and shares, when redeemed, may be worth more or less than original cost. Total return would have been lower if Management had not reimbursed and/or waived certain expenses. The total return information shown does not reflect charges and other expenses that apply to the separate accounts or the related insurance policies or other qualified pension or retirement plans, and the inclusion of these charges and other expenses would reduce the total return for all fiscal periods shown.
- ^ Had the Fund not received the class action proceeds listed in Note A of the Notes to Financial Statements, total return based on per share NAV for the year ended December 31, 2018 would have been (1.24)%. The class action proceeds received in 2017 had no impact on the Fund's total return for the year ended December 31, 2017. The class action proceeds received in 2016 had no impact on the Fund's total return for the year ended December 31, 2016. Had the Fund not received class action proceeds in 2015, total return based on per share NAV for the year ended December 31, 2015 would have been (11.94)%. Had the Fund not received class action proceeds in 2014, total return based on per share NAV for the year ended December 31, 2014 would have been 9.72%.
- μ The voluntary contribution received in 2014 had no impact on the Fund's total return for the year ended December 31, 2014.
- ‡ Had the Fund not received the Custodian Out-of-Pocket Expenses Refunded listed in Note F of the Notes to Financial Statements, the total return based on per share NAV for the year ended December 31, 2017 would have been 13.22%.
- # Represents the annualized ratios of net expenses to average daily net assets if Management had not reimbursed certain expenses and/or waived a portion of the investment management fee. Management did not reimburse or waive fees during the fiscal periods shown.
- β Custodian Out-of-Pocket Expenses Refunded, as listed in Note F of the Notes to Financial Statements, is non-recurring, and is included in these ratios. Had the Fund not received the refund, the annualized ratios of net expenses to average net assets and net investment income/(loss) to average net assets would have been:

Ratio of Net Expenses to Average Net Assets Year Ended December 31, 2017	Ratio of Net Investment Income/ (Loss) to Average Net Assets Year Ended December 31, 2017
1.11%	1.06%

Report of Independent Registered Public Accounting Firm

To the Shareholders of the
Large Cap Value Portfolio and
Board of Trustees of the Neuberger Berman Advisers Management Trust

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Large Cap Value Portfolio (the “Portfolio”) (one of the portfolios constituting Neuberger Berman Advisers Management Trust (the “Trust”)), including the schedule of investments, as of December 31, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Portfolio (one of the portfolios constituting Neuberger Berman Advisers Management Trust) at December 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Portfolio’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2018, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more Neuberger Berman investment companies since 1954.
Boston, Massachusetts

Proxy Voting Policies and Procedures

A description of the policies and procedures that the Trust uses to determine how to vote proxies relating to portfolio securities is available, without charge, by calling 800-877-9700 (toll-free) and on the SEC's website at www.sec.gov. Information regarding how the Trust voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is also available upon request, without charge, by calling 800-877-9700 (toll-free), on the SEC's website at www.sec.gov, and on Management's website at www.nb.com.

Quarterly Portfolio Schedule

The Trust files a complete schedule of portfolio holdings for the Fund with the SEC for the first and third quarters of each fiscal year on Form N-Q or Form N-PORT (available for filings after March 31, 2019). The Trust's Forms N-Q or N-PORT are available on the SEC's website at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330. The information on Form N-Q or Form N-PORT is available upon request, without charge, by calling 800-877-9700 (toll free).

Board Consideration of the Management Agreement

On an annual basis, the Board of Trustees (the "Board") of Neuberger Berman Advisers Management Trust (the "Trust"), including the Trustees who are not "interested persons" of the Trust or of Neuberger Berman Investment Advisers LLC ("Management") (including its affiliates) ("Independent Fund Trustees"), considers whether to continue the management agreement with Management (the "Agreement") with respect to Large Cap Value Portfolio (the "Fund"). Throughout the process, the Independent Fund Trustees are advised by counsel that is experienced in Investment Company Act of 1940 matters and that is independent of Management ("Independent Counsel"). At a meeting held on October 11, 2018, the Board, including the Independent Fund Trustees, approved the continuation of the Agreement for the Fund.

In evaluating the Agreement, the Board, including the Independent Fund Trustees, reviewed extensive materials provided by Management in response to questions submitted by the Independent Fund Trustees and Independent Counsel, and met with senior representatives of Management regarding its personnel, operations, and financial condition as they relate to the Fund. The annual contract review extends over at least two regular meetings of the Board to ensure that Management has time to respond to any questions the Independent Fund Trustees may have on their initial review of the materials and that the Independent Fund Trustees have time to consider those responses.

In connection with its deliberations, the Board also considered the broad range of information relevant to the annual contract review that is provided to the Board (including its various standing committees) at meetings throughout the year, including reports on investment performance, portfolio risk, and other portfolio information for the Fund, including the use of derivatives, as well as periodic reports on, among other matters, pricing and valuation; quality and cost of portfolio trade execution; compliance; and shareholder and other services provided by Management and its affiliates. The Contract Review Committee, which is comprised of Independent Fund Trustees, was established by the Board to assist in its deliberations regarding the annual contract review. The Board has also established other committees that focus throughout the year on specific areas relevant to the annual contract review, such as Fund performance or compliance matters, and that are charged with specific responsibilities regarding the annual contract review. Those committees provide reports to the Contract Review Committee and the full Board, which consider that information as part of the annual contract review process. The Board's Contract Review Committee annually considers and updates the questions it asks of Management in light of legal advice furnished to them by Independent Counsel; their own business judgment; and developments in the industry, in the markets, in mutual fund regulation and litigation, and in Management's business model.

The Independent Fund Trustees received from Independent Counsel a memorandum discussing the legal standards for their consideration of the proposed continuation of the Agreement. During the course of the year and during their

deliberations regarding the annual contract review, the Contract Review Committee and the Independent Fund Trustees met with Independent Counsel separately from representatives of Management.

Provided below is a description of the Board's contract approval process and material factors that the Board considered at its meetings regarding renewal of the Agreement and the compensation to be paid thereunder. In connection with its approval of the continuation of the Agreement, the Board evaluated the terms of the Agreement, the overall fairness of the Agreement to the Fund, and whether the Agreement was in the best interests of the Fund and its shareholders. The Board's determination to approve the continuation of the Agreement was based on a comprehensive consideration of all information provided to the Board throughout the year and specifically in connection with the annual contract review. The Board considered the Fund's investment management agreement separately from those of other funds of the Trust.

This description is not intended to include all of the factors considered by the Board. The Board members did not identify any particular information or factor that was all-important or controlling, and each Trustee may have attributed different weights to the various factors. The Board focused on the costs and benefits of the Agreement to the Fund and, through the Fund, its shareholders.

Nature, Extent, and Quality of Services

With respect to the nature, extent, and quality of the services provided, the Board considered the investment philosophy and decision-making processes of, and the qualifications, experience, and capabilities of, and the resources available to, the portfolio management personnel of Management who perform services for the Fund. The Board noted that Management also provides certain administrative services, including fund accounting and compliance services. The Board also considered Management's policies and practices regarding brokerage, commissions and other trading costs, and allocation of portfolio transactions and reviewed the quality of the execution services that Management had provided. The Board also reviewed Management's use of brokers to execute Fund transactions that provide research services to Management. Moreover, the Board considered Management's approach to potential conflicts of interest both generally and between the Fund's investments and those of other funds or accounts managed by Management. The Board also noted that Management had increased its research capabilities with respect to environmental, social, and corporate governance matters and how those factors may relate to investment performance.

The Board noted the extensive range of services that Management provides to the Fund beyond the investment management services. The Board noted that Management is also responsible for monitoring compliance with the Fund's investment objectives, policies, and restrictions, as well as compliance with applicable law, including implementing rulemaking initiatives of the U.S. Securities and Exchange Commission. The Board considered that Management assumes significant ongoing risks with respect to all Funds, for which it is entitled to reasonable compensation. Specifically, Management's responsibilities include continual management of investment, operational, enterprise, legal, regulatory, and compliance risks as they relate to the Fund, and the Board considers on a regular basis information regarding Management's processes for monitoring and managing risk. In addition, the Board also noted that when Management launches a new fund or share class, it assumes entrepreneurial risk with respect to that fund or share class, and that some funds and share classes have been liquidated without ever having been profitable to Management.

The Board also noted Management's activities under its contractual obligation to oversee the Fund's various outside service providers, including its renegotiation of certain service providers' fees and its evaluation of service providers' infrastructure, cybersecurity programs, compliance programs, and business continuity programs, among other matters. The Board also considered Management's ongoing development of its own infrastructure and information technology to support the Fund through, among other things, cybersecurity, business continuity planning, and risk management. In addition, the Board noted the positive compliance history of Management, as no significant compliance problems were reported to the Board with respect to Management. The Board also considered the general structure of the portfolio manager's compensation and whether this structure provides appropriate incentives to act in the best interests of the Fund. The Board also considered the ability of Management to attract and retain qualified personnel to service the Fund.

As in past years, the Board also considered the manner in which Management addressed various matters that arose during the year, some of them a result of developments in the broader fund industry or the regulations governing it. In

addition, the Board considered actions taken by Management in response to recent market conditions and considered the overall performance of Management in this context.

Fund Performance

The Board requested a report from an outside consulting firm that specializes in the analysis of fund industry data that compared the Fund's performance, along with its fees and other expenses, to a group of industry peers and a broader universe of funds pursuing generally similar strategies with the same investment classification and/or objective. The Board considered the Fund's performance and fees in light of the limitations inherent in the methodology for constructing such comparative groups and determining which investment companies should be included in the comparative groups.

With respect to investment performance, the Board considered information regarding the Fund's short-, intermediate- and long-term performance, net of the Fund's fees and expenses both on an absolute basis and relative to an appropriate benchmark index that does not deduct the fees or expenses of investing, compared to the performance of the industry peer group and a broader universe of funds, each constructed by the consulting firm. The Board also reviewed performance in relation to certain measures of the degree of investment risk undertaken by the portfolio manager.

Noting that the Fund underperformed over certain periods, as described below, the Board discussed with Management the Fund's performance, potential reasons for the underperformance, and, if necessary, steps that Management had taken, or intended to take, to improve performance. The Board also considered Management's responsiveness to the Fund's performance. In this regard, the Board noted that performance, especially short-term performance, is only one of the factors that it deems relevant to its consideration of the Agreement and that, after considering all relevant factors, it determined to approve the continuation of the Agreement notwithstanding the Fund's underperformance.

Fee Rates, Profitability, and Fall-out Benefits

With respect to the overall fairness of the Agreement, the Board considered the fee structure for the Fund under the Agreement as compared to the peer group provided by the consulting firm. The Board reviewed a comparison of the Fund's management fee to a peer group of comparable funds. The Board noted that the comparative management fee analysis includes, in the Fund's management fee, the separate administrative fees paid to Management. However, the Board noted that some funds in the peer group pay directly from fund assets for certain services that Management covers out of the administration fees for the Fund. Accordingly, the Board also considered the Fund's total expense ratio as compared with its peer group as a way of taking account of these differences.

The Board compared the Fund's contractual and actual management fees to the median of the contractual and actual management fees, respectively, of the Fund's peer group. (The actual management fees are the contractual management fees reduced by any fee waivers or other adjustments.) The Board also compared the Fund's total expenses to the median of the total expenses of the Fund's peer group. The Board noted that the Fund's management fee and total expenses were higher than the peer group median, and considered whether specific portfolio management, administration or oversight needs or the Fund's relatively small size contributed to the Fund's management fee and total expenses. In addition, the Board considered the contractual limit on expenses of the Fund. In addition, the Board noted that the Fund's size, which impacts its expenses and performance, has been affected by ongoing changes in the insurance market.

In concluding that the benefits accruing to Management and its affiliates by virtue of their relationship with the Fund were reasonable in light of the costs of providing the investment advisory and other services and the benefits accruing to the Fund, the Board reviewed specific data as to Management's estimated profit on the Fund for a recent period on a pre-tax basis without regard to distribution expenses, including year-over-year changes in each of Management's reported expense categories. (The Board also reviewed data on Management's estimated profit on the Fund after distribution/servicing expenses and taxes were factored in, as indicators of the health of the business and the extent to which Management is directing its profits into the growth of the business.) The Board considered the cost allocation methodology that Management used in developing its estimated profitability figures. In 2017, the Board engaged an

independent forensic accountant to review the profitability methodology utilized by Management when preparing this information and discussed with the consultant its conclusion that Management's process for calculating and reporting its estimated profit was not unreasonable. Recognizing that there is no uniform methodology within the asset management industry for determining profitability for this purpose and that the use of different reasonable methodologies can give rise to different profit and loss results, the Board requested from Management examples of profitability calculated by different methods and noted that the estimated profitability levels were still reasonable when calculated by these other methods. The Board further noted Management's representation that its estimate of profitability is derived using methodology that is consistent with the methodology used to assess and/or report measures of profitability elsewhere at the firm. In addition, the Board recognized that Management's calculations regarding its costs may not reflect all risks, including regulatory, legal, operational, reputational, and, where appropriate, entrepreneurial risks, associated with offering and managing a mutual fund in the current regulatory and market environment. The Board also considered any fall-out (i.e., indirect) benefits likely to accrue to Management or its affiliates from their relationship with the Fund. The Board recognized that Management and its affiliates should be entitled to earn a reasonable level of profits for services they provide to the Fund and, based on its review, concluded that Management's reported level of estimated profitability on the Fund was reasonable.

Information Regarding Services to Other Clients

The Board also considered other funds and separate accounts that were advised or sub-advised by Management or its affiliates with investment objectives, policies and strategies that were similar to those of the Fund, and compared the fees charged to the Fund to the fees charged to such comparable funds and separate accounts. The Board considered the appropriateness and reasonableness of any differences between the fees charged to a Fund and such comparable funds and/or separate accounts, and determined that differences in fees and fee structures were consistent with the differences in the management and other services provided. The Board explored with Management its assertion that although, generally, the rates of fees paid by such accounts (other than mutual funds) were lower than the fee rates paid by the corresponding Fund, the differences reflected Management's greater level of responsibilities and significantly broader scope of services regarding the Fund, the more extensive regulatory obligations and risks associated with managing the Fund, and other financial considerations with respect to creation and sponsorship of the Fund.

Economies of Scale

The Board also evaluated apparent or anticipated economies of scale in relation to the services Management provides to the Fund. The Board considered whether the Fund's fee structure provides for a reduction of payments resulting from the use of breakpoints, the size of any breakpoints in the Fund's advisory fees, and whether any such breakpoints are set at appropriate asset levels. The Board also compared the breakpoint structure to that of the peer group. In addition, the Board considered the expense limitation and/or fee waiver arrangements that reduces Fund expenses at all asset levels which can have an effect similar to breakpoints in sharing economies of scale with shareholders and provide protection from an increase in expenses if the Fund's assets decline. The Board also considered that Management has provided, at no added cost to the Fund, certain additional services, including but not limited to, services required by new regulations or regulatory interpretations, services impelled by changes in the securities markets or the business landscape, and/or services requested by the Board. The Board considered that this is a way of sharing economies of scale with the Fund and its shareholders.

Fund Analysis

With regard to the investment performance of the Fund and the fees charged to the Fund, the Board considered the following information. The broader universe of funds referenced in this section was identified by the consulting firm, as discussed above, and the risk/return ratios referenced are the Sharpe ratios provided by the consulting firm. In the case of underperformance for one or more of the periods reflected, the Board considered the magnitude of that underperformance relative to the broader universe, as defined below, and the benchmark (e.g., the amount by which a Fund underperformed,

including, for example, whether the Fund slightly underperformed or significantly underperformed its benchmark). With respect to performance quintile rankings for the Fund compared to its broader universe (“Performance Universe”), the first quintile represents the highest (best) performance and the fifth quintile represents the lowest performance. With respect to the quintile rankings for fees and total expenses (net of waivers or other adjustments, if any) for the Fund compared to its peer group (“Expense Group”), the first quintile represents the lowest fees and/or total expenses and the fifth quintile represents the highest fees and/or total expenses.

The Board considered that, based on performance data for the periods ended December 31, 2017: (1) as compared to its benchmark, the Fund’s performance was lower for the 1-, 3-, 5-, and 10-year periods; and (2) as compared to its Performance Universe, the Fund’s performance was in the fourth quintile for the 1- and 5-year periods, the third quintile for the 3-year period, and the fifth quintile for the 10-year period. The Board considered that, as compared to its Expense Group, the Fund’s contractual management fee ranked in the fifth quintile, the actual management fee ranked in the fifth quintile, and total expenses ranked in the fifth quintile. The Board also noted the Fund’s outperformance versus its benchmark during the 7-month period ending July 31, 2018.

Conclusions

In approving the continuation of the Agreement, the Board concluded that, in its business judgment, the terms of the Agreement are fair and reasonable to the Fund and that approval of the continuation of the Agreement is in the best interests of the Fund and its shareholders. In reaching this determination, the Board considered that Management could be expected to continue to provide a high level of service to the Fund; that the Board retained confidence in Management’s capabilities to manage the Fund; that the Fund’s fee structure appeared to the Board to be reasonable given the nature, extent, and quality of services provided or the Fund’s relatively small size; and that the benefits accruing to Management and its affiliates by virtue of their relationship with the Fund were reasonable in light of the costs of providing the investment advisory and other services and the benefits accruing to the Fund. The Board’s conclusions may be based in part on its consideration of materials prepared in connection with the approval or continuance of the Agreement in prior years and on the Board’s ongoing regular review of Fund performance and operations throughout the year, in addition to material prepared specifically for the most recent annual review of the Agreement.

Notice to Shareholders

79.19% of the dividends earned during the fiscal year ended December 31, 2018 qualify for the dividends received deduction for corporate shareholders.

The Fund designates \$4,174,256 as a capital gain distribution.
