

Take Advantage of the Vision Benefits Within Your Dental Plan

Your dental plan includes vision benefits. You choose how to spend your benefit dollars. With this kind of flexibility, it's easy to make the most of your benefits.

Flexible options to fit your needs

A portion of your annual dental maximum can be used to help cover vision expenses. You can use your entire maximum for dental care, or use up to the shared dental/vision maximum amount on eye exams, glasses or contacts. Benefits for dental and vision cannot exceed the full annual dental maximum.

How to use your benefits

- In your member account, review your plan maximum, remaining benefits, and the amounts allowed for dental services and vision services.
- Schedule an appointment with your preferred vision provider.
- Since there is no network, you can take advantage of special pricing offers from any vision provider.
- Pay your vision provider and request an itemized receipt.
- Submit a claim by uploading images of your completed claim form and receipt in your member account*.
- Ameritas will reimburse you up to the amount allowed for vision services.

Note: Dental and vision claims are processed as they are received. If you reach your dental maximum, no further benefits will be available for dental or vision expenses until the following benefit year. You may have a separate comprehensive vision plan in addition to this reimbursement benefit. Check with your benefits administrator to confirm.
