

Employees Earn Increased Benefits With Dental Rewards®

When employees use their dental benefits, they can earn rewards to help pay for more expensive dental services in the future.

Dental Rewards encourage preventive dental visits and are beneficial for those with good oral health who may need additional procedures every once in a while.

- Members who visit the dentist, submit a claim and keep benefits received at or below the annual benefits threshold each year will continue to earn benefit rewards that carry over to the following year.
- Members use benefit rewards after their benefit maximum is used. So members earn increased benefits without increasing premium.
- Members can earn PPO Bonus rewards when visiting an Ameritas Dental Network provider.*
- Members can find benefits and rewards information online—there's nothing for you to track.
