

The Advantages of Stand-Alone Dental Benefits

It may sound convenient and economical to rely on the dental coverage within your medical plan. But when it's time to visit the dentist, the value and coverage of stand-alone dental benefits are unparalleled.

Reasons to consider a stand-alone dental plan:

Expertise

Work with a team who specializes in dental insurance and you can rest assured that your claims are processed correctly and premium prices are accurate.

- Ameritas processes 92% of claims in an average of 9 business days.
- Ameritas processes claims with 99.16% dollar accuracy.
- Ameritas actuaries specialize in dental insurance and review rates annually based on internal and industry reports.

Network

Network dentists provide quality care and offer discounts to help employees save money.

- When visiting an Ameritas network dentist, member out-of-pocket expenses are generally 25-50% lower.
- Ameritas Dental Network providers must meet and maintain quality standards.
- Ameritas dental plans help pay for covered services even if members visit out-of-network dentists.

Value

With voluntary benefits, employees can choose to pay a little extra so they get the benefits they want and need.

- A BenefitsPro survey found that 83% of workers with healthcare coverage would enroll in a voluntary benefits program without expecting their employer to pay for it¹.
- Most Ameritas stand-alone dental plans cover preventive services at 100% and provide coverage for more serious procedures that medical benefits may not cover.
- Members may have to meet high medical deductibles before dental benefits are available. Most stand-alone dental plans help cover dental costs right away.

Your dental coverage should be just as robust and reliable as your medical plan. Find out more about Ameritas stand-alone dental benefits today.
