

Coverage for LASIK procedures

Focus on what really matters

Consider the solution that has changed the lives of millions of Americans: laser vision correction surgery. If you are a candidate, take advantage of your LASIK benefits.

Your Ameritas dental or vision benefits include LASIK coverage. The LASIK benefits increase over time.

Lifetime benefit amount per eye*

Year 1	Year 2	Year 3	Year 4+

* The benefit increases over time, based on the effective date. You may not combine benefit amounts for each eye to pay for a covered procedure for a single eye.

Covered procedures

Your benefits provide access to a number of popular, well-established laser vision correction procedures.

- LASIK
- LASEK
- LASIK with Wavefront Technology
- LASIK with IntraLase Technology
- Advanced Surface Ablation (ASA)
- Photorefractive Keratectomy (PRK)

Things to know

- **Procedure benefits:** If you wait to have eye surgery until the third or fourth year that you are on the plan, you will receive a greater benefit. And although the benefit amount increases over time, the payment is a lifetime benefit and is available only once per person.
- **No network:** Your LASIK benefits are not tied to a network. You can seek services from any doctor at any facility. You can use your LASIK benefits in conjunction with discounts or specials that may be offered by the provider.
- **Age requirement:** You must be 18 or older to receive LASIK benefits.
- **Submitting a claim:** You can submit a claim in three easy steps. 1) Get an itemized receipt from your provider. 2) Download and fill out Part 1 of a [LASIK claim form](#). 3) Submit the claim by fax or mail. And you can check your claims status in your member portal.

These procedures may not be appropriate for every condition or patient. Individuals age 18 and older who are interested in laser vision correction surgery should consult their eye doctor to determine whether they are candidates or not. The eye doctor or laser correction provider should explain all procedure options available, including the potential risks and side effects of each.
