

Support Your Employees in Retirement

Your dedicated employees appreciate the comprehensive benefits package you provide for them. And while most employees look forward to retirement, they don't look forward to losing their benefits.

Medicare does not cover routine preventive dental and vision care. And supplemental insurance can be overwhelming. Help ease the burden by seamlessly transitioning their dental and vision coverage to a retiree plan.

Close the gap*

71% plan to have dental insurance in retirement

48% can keep dental insurance through their employer in retirement

Flexible dental and vision plans

Employers of all sizes can offer retirees dental and vision benefits. Members pay for the benefits themselves – you don't contribute to the plan premium.

You can match your current dental and vision policies. Or create new, tailored plans that feature hearing benefits or increasing coverage for periodontal procedures. If you currently offer rewards programs, the accumulated rewards balance can roll over to the new plan.

Stand out as a preferred employer

Your benefits package impacts your employee recruitment and retention. Continue to show your employees how valued they are, and have been over the years, by offering the same quality of benefits when they retire.

It has never been easier to offer benefits to your most valued and trusted employees.

1. Decide who will administer the plans – you or Ameritas.
2. Match your current Ameritas dental and/or vision plans, or customize plan details to create a new plan for this specialized group.
3. Share the new retirement benefits with your employees. Include information in your existing retirement materials, benefits site or intranet. For additional resources, contact your benefits broker.
