

Ameritas Dental Network Plans vs. DHMO

Get peace of mind with an Ameritas network plan

With an Ameritas Dental Network plan, your employees will be covered, even in a dental emergency. A DHMO will cover preventive services. But if your employees or their dependents have a more serious dental concern, they could end up footing 100% of the cost.

When employees aren't properly covered, they will delay seeking care. Delaying care is not only costly for your employees, it can lead to more serious health problems and lost work hours. That's why Ameritas covers the more expensive services in addition to preventive care. It's all about fulfilling life, which is what we do best.

40% of adults indicated that they would forgo dental care due to cost.¹

Without insurance coverage, a root canal typically costs between **\$900 and \$1,600.**³

164 million work hours are lost each year due to dental-related illnesses in adults.³
