

Secure Your Employees' Benefits With the Ameritas Dental Network

A dental network that meets your employees' needs

About 98% of providers stay with Ameritas year after year, and the network dependably grows. So the providers your employees visit are likely to be in-network and stay in-network, leading to cost savings.

One of the largest, most reliable networks in America

Our network offers more than:

- 132,000 unique providers
- 92,000 unique locations
- 592,000 access points

Here's what the numbers really mean:

- Unique Providers – The number of dentists in a network. Each dentist is counted only once.
- Unique Locations – The number of dental offices in a network. Each office is counted only once.
- Access Points – The number of dentists at each office. A dentist who works at two different offices equals two access points.

Benefit dollars that go further

Visit any dentist. Ameritas dental plans allow members to visit any dentist they choose, in- or out-of-network. Family members do not need to visit the same dentist.

Save money. Visiting a network dentist can make benefit dollars go further. Dentists in the Ameritas network have agreed to charge 25-50% less than their regular rates.

Avoid paperwork. When visiting a network provider, there are no claim forms to submit.

Exceptional network. The Ameritas Dental Network is one of the nation's largest. Members can even visit dental providers in Mexico and still receive coverage. Only dentists who adhere to our credentialing and quality assurance requirements are able to join and remain in the network. Locate network providers at ameritas.com - [Find a Provider](#).
