

Dual and Triple Choice Vision Benefits

For groups with at least 20 eligible employees

Employee choice and flexibility

When employees can choose the vision plan that best fits their needs, enrollment and benefit usage are typically higher, and employees value their benefits more.

Simplified plan administration

With dual and triple choice options, you can offer multiple plans with the convenience of one carrier and enrollment form.

Network and no-network plans

Ameritas vision plans feature both of the nation's top networks—VSP and EyeMed—and the versatility of Vision Perfect®, a no-network plan that provides consistent benefits regardless of the provider. Choose one network, or both, and allow employees to decide which network best meets their vision care needs.
