Unique vision plans

Network savings options. Ameritas vision plans feature both of the nation's top networks – VSP and EyeMed. Employers can choose a VSP or EyeMed network plan, or they can offer both networks and let employees choose which network they want during open enrollment. EyeMed offers enhanced eye exam and frame coverage with PLUS providers.

No-network plans. Ameritas no-network Vision Perfect® plans offer the same benefits no matter which provider the member visits. To meet varying needs, these plans can be designed as schedule, flat maximum, increasing maximum or materials only.

Employees choose their plan. With dual and triple choice options, employers offer multiple plans with the convenience of one carrier and enrollment form. Employees choose which plan and network is best for them and their family.

Affordability for small groups. EyeChoice® brochured plans offer a choice of network, frame allowance and benefit frequency. With clearly listed rates, these affordable plans help groups with as few as three employees offer VSP and EyeMed network savings or a no-network vision plan.

Combine vision with dental. Ameritas offers a few ways to increase benefits with reduced premium and/or simpler administration.

- A shared portion of the member's dental maximum benefit can be used toward vision expenses with a dental Fusion plan. For additional frame and contact lens benefits, and vision network discounts, pair a dental Fusion plan with an Ameritas vision plan featuring the VSP or EyeMed network.
- Add eye exam coverage to any Ameritas dental plan with VSP Exam Plus®.
- With Ameritas Rewards®, a set amount of benefit rewards that members earn by using their Ameritas dental plan may be used to help pay for eyeglass frames or contact lenses.
